

Our Spring Show at Kettering and Covid Restrictions.

Government Restrictions have been relaxed.

Determined to resume face to face shows in 2022, we planned for the worse-case scenario and informed all members, exhibitors and committee members what they would need to do if Covid Restrictions were still in place on 5th March 2022. I am now pleased to confirm that all Government restrictions have been lifted and that the Kettering venue, where we hold the Spring Show, will not impose any restrictions either.

The Government wording states:

27 January 2022 - this guidance applies to ENGLAND

You no longer need to wear a face covering, but consider wearing one in crowded, enclosed spaces where you may come into contact with people you do not normally meet.

You no longer have to show your NHS COVID Pass at venues and events.

So:

- Please wear a face covering if you wish to but, it is not compulsory
- We will not be checking Covid status
- We do not have to impose social distancing or one-way systems
- The ventilation in the Arena brings fresh air in from outside, it is not recirculating stale air but, we will open the fire exits and provide additional ventilation if required.

If anything changes, we will ensure members are all informed via email, if we have one for you, or via the front page of the Guild website beside the Kettering Spring Show advert

We look forward to seeing you soon.

Jackie Kneeshaw

Chairman of Events & Trade Manager
